Events Listed for L.G. Crazy Daze

A Car Cavalcade, a moonlight sale, helicopter rides, a street dance and a talent contest. All these will be part and parcel of Lemon Grove Crazy Daze to be held here July 17-20.

One of the features of the town-wide promotion will be a banquet honoring A. F. Tony Sonka on July 18. (See story page 1).

The moonlight sale will be held July 17 and local business people will be open as long as there are people circulating about town. Some merchants will have sidewalk counters to help make Lemon Grove shopping more fun that night.

Helicopter rides at \$2 a pas-

senger will start on Wednesday, too. The "landing field" will be the vacant area on Broadway opposite St. John of the Cross church.

Marcia Manu, Miss Lemon Grove, will participate in most of the festivities.

The Junior Chamber of Commerce, recently reorganized, will sponsor a street dance and a talent contest. These two events will be held in the Mayfair parking lot at Broadway and Olive streets.

A display of the Telestar model by PacTelCo, a visit by the bloodmobile and by the chestmobile are also scheduled.

Cake sales and rummage sales will be conducted in whatever vacant stores are available, according to Charles Buckles, chairman of the Crazy Daze event.

Don Johns, chairman of the Lemon Grove Merchants' Association, which sponsors the project, said several firms are painting and cleaning up their premises in anticipation of the event. He urged all firms to do likewise.

County Discovers Added Revenues

SAN DIEGO (CNS) — County officials found about \$650,000 in additional tax revenue Monday when the latest tax assessment figures were released, but a tax rate increase has not been ruled out, according to T. M. Heggland, county chief administrative officer.

Heggland said he was happy about the unexpectedly high increase in assessed valuation, but declined to discuss the possibility of raising taxes.

"If any tax raise is necessary," he said, "it will be a small one, though."

An increase of some 4.43 per cent in the assessed valuation was disclosed Monday when John McQuilken, county assessor, released the latest assessment figures.

Heggland had estimated some three per cent in recommending the 1963-64 budget. He said that the difference between his estimate and the actual figures would mean some \$650,000 in additional tax revenue for the county on the present tax rate of \$2.14 per \$100 of assessed valuation.

The county budget had been some \$1.5 million out of balance when adopted last week. He said that a decision to sell surplus property valued at about \$500,000 and an increase in fees for special services in building inspection and planning could still leave the county short of funds, making a tax increase necessary.

Club Juniors Sponsor 'Flower, Drum Song'

Lemon Grove Woman's Club Juniors will sponsor a benefit matinee July 21 of "Flower and Drum Song" at the Circle Arts Theatre.

Proceeds from the benefit matinee at 2:30 p.m. will be donated by the Juniors toward the purchase of a Bekezy audiometer and other specialized equipment for San Diego State College's Speech and Hearing Clinic.

Tickets

"Flower and Drum Song" will star Pat Suzuki in Rogers and Hammerstein's popular musical salute to San Francisco's Chinatown. Special benefit tickets for the matinee are \$4, \$5 and \$6. They may be purchased from Theatrical box offices, the San Diego State bookstore and from the Woman's Club Juniors, P.O. Box, 42, or call 469-5177.

COLLEGE OBTAINS MEMORY COMPUTER

Grossmont College becomes one of seven junior colleges in the state to have a memory cell computer available for instruction.

The 1620 computer, recently obtained through joint financing of federal, State and local agencies, will be used for engineering, cost estimating, and related technical courses. Administratively the computer will assist in scheduling, payroll and other work.

"This computer deals in Nano seconds, a speed of computation so swift that it is operating at a fraction of time equal to one second compared to 30 years ago," said Dena Lorraine Coons, Grossmont admissions officer, at a conference in San Jose.

Center at SDSC is the only service of its kind available to San Diego County residents free of charge.

Services for adults and children requesting diagnostic and/or therapeutic assistance include examination of the patient's speaking ability and speech mechanism, hearing examinations, hearing aid evaluations and parent interviews.

Therapy

Individual therapy is offered by the center for hearing loss, stuttering, stroke patients, cancer patients, cleft palate, cerebral palsy, brain damage, mental retardation, foreign speaking individuals, articulation problems, delayed speech, and voice problems.

Equipment Needed

In order to improve present resources of the center, certain equipment is needed. The Bekesy audiometer, goal of the Woman's Club Juniors' benefit matinee, not only measures the hearing level of a patient, but is so able to magnify the hearing pathology that it serves to pinpoint exactly where in the ear the loss is located.

Better Equipped

Mrs. Wayne Chubb, president of the Lemon Grove club, said that with the addition of this equipment, "San Diego State will be that much better able to offer San Diego the most modern and valid assistance in the area of speech and hearing problems that is possible anywhere in the entire nation."

Lemon Grove Woman's Club Juniors leading the work on this benefit include Mrs. Wayne Chubb, president; Mrs. Joseph Payson, general chairman; Mrs. Bernard McNulty and Mrs. William Franken, promotion; Mrs. Gerald Stenberg, tickets; Mrs. Charles Blackburn and Mrs. Farrell Patton.

Federal Funds Awarded to High School District

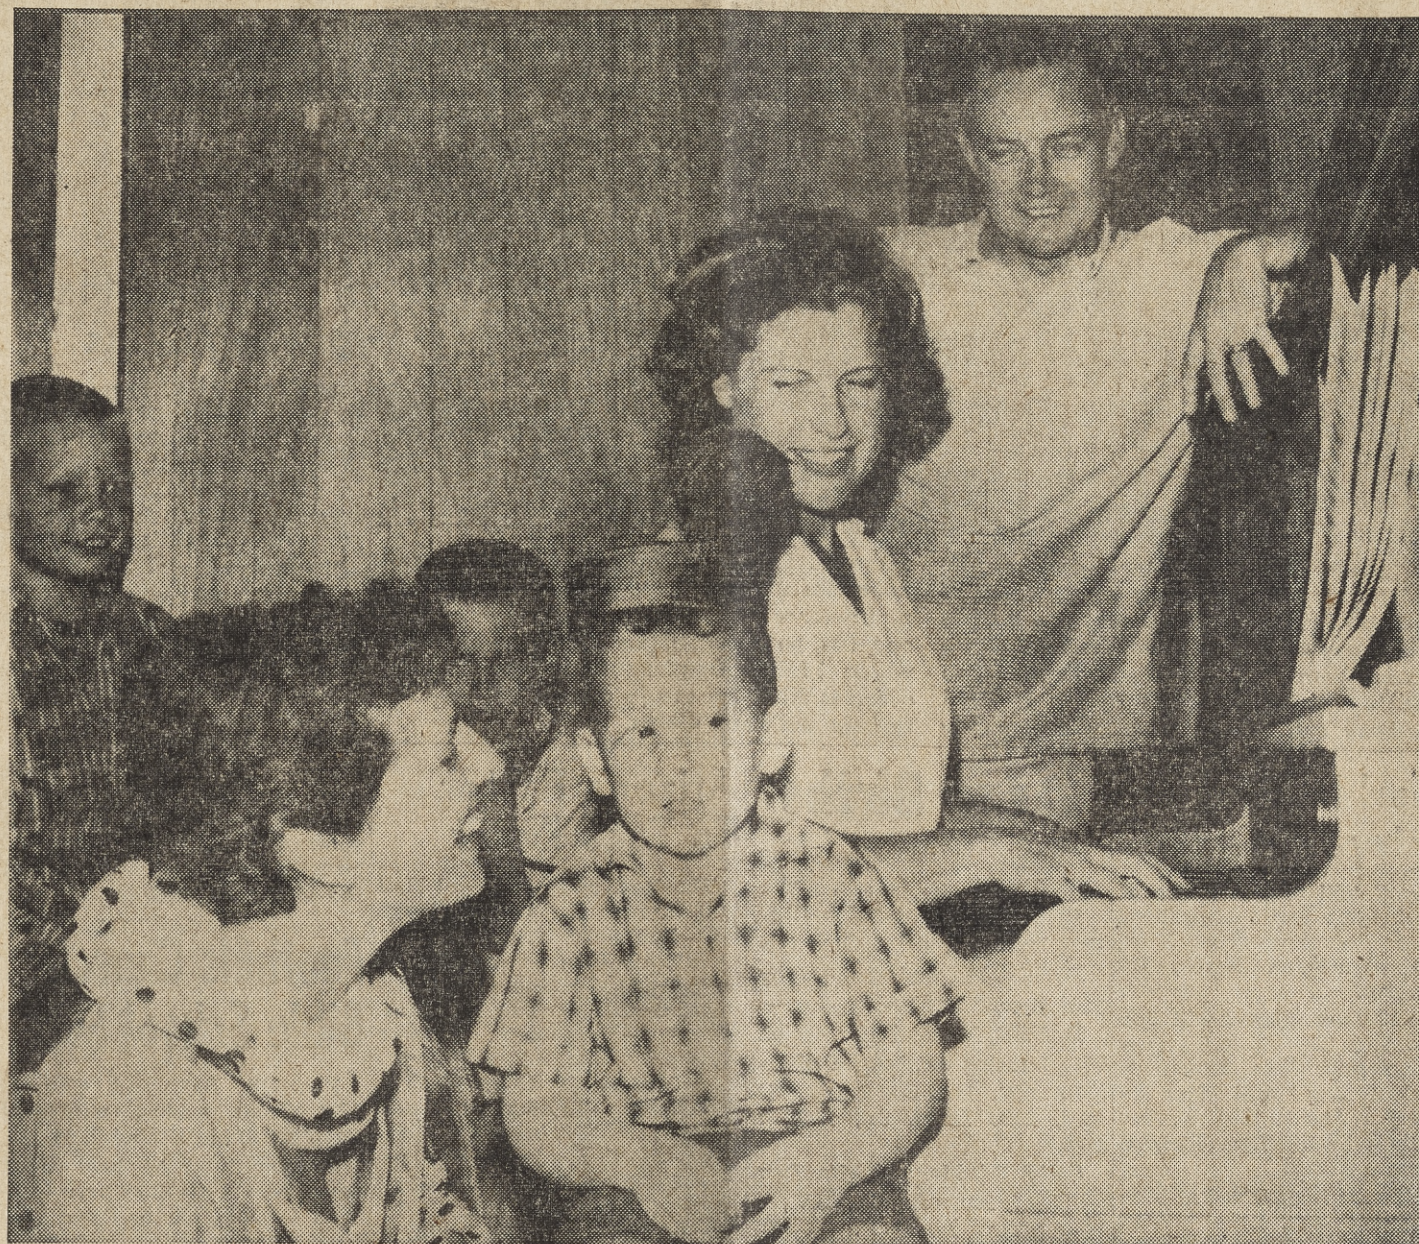

Grossmont Junior College District recently was awarded \$11,715 for school operating funds pursuant to Public Law 874, according to an announcement by Congressman James B. Utt, R-35th District.

The Grossmont Union High School District earlier was awarded \$254,150 pursuant with the same law, according to Utt.

Public Law 874 makes schools which are heavily burdened by the impact of Federal installations in their areas eligible for financial assistance.

The High School District will receive a total sum of \$15,621 during the 1963 fiscal year, and the \$11,715 award will be paid immediately, the announcement said.

Additional payments will be subject to adjustments as may be required by actual data and by the availability of funds in relation to total entitlements for financial assistance.

KNIGHT AT HOME - - - FOR SHAKESPEARE — That's what the Globe Guilders asked its members to do. Spend a relaxed night at home and give to the Shakespeare project an amount equal to the money saved. Several Lemon Grove and Spring Valley members did exactly that and the results were happy and instantaneous. More than \$1,000 went in to the Knight At Home for Shakespeare Fund Raiser before the project was half over. Two local families decided to join resources and save twice as much for the Old Globe by relaxing at home

together. Taking part in the happy arrangement is the Robert M. Michetti family of Spring Valley. (Robert is missing from the photo because he was still at work when the picture was taken) and the Richard Meads family of Lemon Grove. Singing in the family room of the Meads' home at 1719 La Corta are Richard Meads, at far end of piano; his wife Betty playing the piano, and their two children Tom and Gary. In the foreground with the Shakespearean cap is Peter Michetti and his mother, Toni.

County Board Calls September Election On Park District

SAN DIEGO (CNS) — An election to form the Spring Valley Recreation and Park District was set for Sept. 10 by the County Board of Supervisors Monday.

The supervisors decided after a hearing that the project was economically feasible and of benefit to the community.

Land Excluded

About one-third of the original 3,990 acres proposed to be included in the district was excluded by the supervisors as receiving no benefit from a recreation district. The excluded area generally included only vacant land and represented less than 10 per cent of the assessed valuation of the proposed district.

20 Cent Tax

Assessed valuation of the proposed district is about \$11.5 million.

Proponents of the district suggested to the supervisors that a tax limit of 20 cents per \$100 of assessed valuation be included as a part of the district proposition.

William C. Faulwetter, attorney for the group of housewives who lead the campaign for the district, told the supervisors that a meeting had been held between the proponents and owners representatives of large undeveloped land and had reached agreement on which land to exclude from the proposed district.

RESIDENTS TO HAVE SAY ON VISTA LA MESA PARK PLAN

SAN DIEGO (CNS) — Neighbors of the Vista La Mesa park were assured Friday that they will be able to argue further development of the park before any Master Plan is adopted for the two-acre parcel on King st. just south of Hoffman.

The commission approved a request of the County Park Department for a special use permit for the park that has been used as a Little League Field for several years.

Neighbors of the park protested that further development of the park should not take place until King st. is paved.

The Registrar of Voters must determine the precincts and set up the election machinery to consider the proposal.

Supervisor David W. Bird, who represents the area, warned the proponents that a bill now awaiting the signature of Governor Edmund Brown could kill the proposal if it is delayed until September 13, when the new bill becomes law. The new law would set up new procedures for forming districts.

District Bounds

The proposed district would include nearly all of the inhabited area of Spring Valley and La Presa, including the Edgewater subdivision, the Sweetwater Mobile Lodge and Lakeview Manor Mobile Lodge on Jamacha Road.

Don Short, a spokesman for Fred J. Hansen, legal owner of most of the undeveloped land excluded, told the supervisors that he did not oppose the district's formation.

People's Choice

"We believe that people have a right to determine whether they want to pay for their own recreational facilities or not," said Short, "but on land where there are no people to benefit, there is no need to bear the burden of additional taxes."

Facilities Needed

Faulwetter asked the supervisors for affirmative action because he said the district was needed as an answer to juvenile delinquency in the area.

"There are no community facilities within this area," said Faulwetter.

A study of the proposal by County Parks showed that an operating tax rate of about 11 cents and a bond issue costing about 16 cents per \$100 of assessed valuation to finance facilities for the proposed district.

Land Offered

A four-acre park on Apple st. in La Presa has been offered by Ralph Chapman, land owner in the area. An additional four acres would be necessary to complete the park.

The district would be operated by the Board of Supervisors with any advisory board of community leaders appointed by the supervisors upon local suggestion.

Communities Here Will Lose Right Of Self Determination

In Spring Valley there will be an election September 10 on the formation of a recreation district.

It may very well be the last election of any sort for self-determination in the east county.

New legislation all but takes the right away from residents of unincorporated areas to come to a decision without approval of nearby cities.

Legislation will set up a committee which will decide whether Lemon Grove should be a city, or whether Spring Valley may form a recreation district, or in fact, whether or not the Board of Supervisors may accept any petitions circulated for self-governing purposes.

It gives permission to cities to establish potential growth areas and if your community is within this area, about the only things that you may do is to allow the city which lays claim on you to annex you. This could be turned down several times by election but cities have the bankroll to call election after election, and the inevitable may be delayed but not dissolved.

Chambers of commerce, service clubs and individuals here implored legislators to kill the bill.

A BLAST AT GROUNDBREAKING — Congressman Lionel Van Deerlin, center, D-37 District, is shown pushing the button which set off the dynamite blast at the Helix Irrigation District water treatment plant site. Also shown at the groundbreaking ceremonies last Friday morning are Byron M. Miller, left foreground, general manager of the District; Clarence Watters, behind Miller, junior chief engineer; and Harry Griffen, far right, chairman of District board of directors. The \$3.7 million

water treatment plant will provide filtered drinking water to some 136,000 customers of the east county area. The ground-breaking nearly coincided with the explosion that signaled the start of building on Chett Harritt Dam two years ago. Site of the filtering plant is just south of the dam, and construction is due to begin within 30 days, according to Miller. The plant was made possible by a recent federal grant of \$1,140,500 accelerated public works program funds.

Squawkers Win in SV Land Squabble

Irate Spring Valley landowners who favor chickens and hogs to rentals won a decisive victory Friday when the County Planning Commission convened.

Residents of Montemar dr. and both sides of Helix st. petitioned to the Commission protesting a proposal to rezone 230 acres in Spring Valley for residential purposes. Gil Ray, a real estate man from Spring Valley, made the proposal to rezone the land for residential use.

Gerrymander

However, the storm of protest was so great that the County Planning Commission gerrymandered Ray's proposal, deleting nearly all properties protesting from A-3(1) and A-4(1), which permit heavy agricultural uses, to R-1 and E-1-A which permit single family residential uses on half-acre lots and smaller.

Rezoning the Proposal

The Commission drew a dividing line thus rezoning the rezoning proposal from an area east of South Barcelona, north along rear property lines on the 9500 block of Montemar dr. to rear property lines facing Ivy

st. westward to Montemar. The unended proposal was generally believed to exclude the properties of those protesting the plan.

Late Protest

A late wave of public protest came because the former commission policy of notifying property owners by mail had been waived. Only a legal notice concerning the rezoning was placed in this newspaper because of the "mechanical problems of getting so many notices to so many people," according to Dr. Willis Miller, planning director. But the Commission was deluged with protests, despite the lack of individual notification.

Appearing to protest the rezoning proposal on Friday were Raymond Aspostle, Mrs. D. R. Swenson, M. Uhlig, Frieda Spaulding, Mrs. Robert Burns, Richard Sass, Mrs. Norma West and Mrs. H. Oakes.

Petitions

Aspostle, a property owner affected, presented three petitions which he said represented over 80 per cent of the land owners in the Montemar dr. area protesting the proposal.

Another man, V. E. Jaquith, 9360 Ivy ln., countered a warning by Ray that chicken and hog farms could be brought into the neighborhood by saying, "I'd rather have chickens and hogs than rentals."

The proposal now goes to the County Board of Supervisors for final action.

Sonka Day Tickets On Sale

Dr. Frank Gigliotti of Lemon Grove, who recently led a successful fund-raising campaign for the Red Cross in the east county, accepted the chairmanship Friday of the A. F. (Tony) Sonka banquet to be held in Lemon Grove July 18.

Sonka, one of the "founders" of the Lemon Grove community will be honored by more than 200 of his townspeople, it was estimated by Charles Buckles, program chairman of the event.

The banquet is being sponsored by the L.G. Men's Club and the event is being made a part of a community-wide project. The dinner will be held at Michael's starting at 7:30 p.m. July 18 and a host of dignitaries have already made reservations.

Among these are Supervisor David W. Bird; Sheriff Joseph O'Connor and Planning Commissioner Gilbert Ray.

The Men's Club usually bars women but the bars will be down for them at the banquet according to Jack Cummings, club president.

Tickets for the steak dinner are \$4.75 a couple or \$2.50 single and may be obtained from Buckles, Cummings or Dr. Gigliotti.

PAMPED PET GETS ADDITION No. THREE

The Ronald Gondeks, operators of the Pampered Pet shop in Lemon Grove, have added their own pampered pet.

He is Brian Lee, born to Leane Saturday at Grossmont hospital.

Brian weighed 8 pounds, 5 ozs. and is the couple's 3rd child.

Bird Opposes Use of Plant For Bonita

SAN DIEGO (CNS) — Prolonging the life of the sewage treatment plant in Spring Valley to provide reclaimed water for Bonita Valley country clubs and farmers was vigorously opposed Monday by Supervisor David W. Bird.

Sitting as a member of the Board of Directors of the Spring Valley Sanitation District, Bird closely questioned the wisdom of a study being made of the feasibility of providing reclaimed water for the valley.

Warren A. Barney, director of Special District Services, said he was conducting a feasibility and cost study in answer to a request from Bonita Valley interests on the subject.

Bird reminded the board that Spring Valley residents had voted for a bond issue for sewer line to connect to the metropolitan system on the basis that they had been promised relief from the plant, which had drawn community opposition as an odor nuisance.

Degraff Austin, district director, disagreed with Bird. He said that he had never promised that reclaimed water would not be used.

"Well, if those people want to build their own little plant in Bonita and draw off of the Spring Valley line, that's fine," said Bird.

L.G. May Lose Sub Station

A central sheriff's office may be established in Casa de Oro replacing those in Lemon Grove and El Cajon, Sheriff Joseph O'Connor told members of the L.G. Men's club Friday.

"It doesn't seem reasonable to keep an office in El Cajon adjacent to their police station where our deputies are duplicating the travel of the El Cajon police," O'Connor said.

Should Casa de Oro become the central station for the sheriff's east county activities the Lemon Grove substation will more than likely be merged with it.

Even though we are in radio contact with all our deputies all the time, a central headquarters would give us quicker fan-out ability," he said.

O'Connor said that the average time for a deputy to respond to a call is seven minutes.

He also reported that police protection is being given to newly incorporated cities at the rate of \$6.72 per capita a year. "The police cost in San Diego is \$12 and in El Cajon it is \$11," he said.

The Men's Club will hear San Diego City Councilman Frank Curran at Friday's meeting. Curran, a student of South American affairs, will discuss San Diego as an "International Gateway."

The meeting starts at noon and all men of the community are invited. Jack Cummings presides.

James, director of social work for the presbytery, reports that some 50,000 people of all age, from pre-school children to senior citizens, participate in the varied programs offered at the community centers. Fence Request Denied, But Height Is Trimmed

SAN DIEGO (CNS) — A request of the Lemon Grove Lutheran Church to eliminate a requirement for a six-foot solid fence on two sides of its church site was turned down Friday by the County Planning Commission, but the height of the fence was reduced.

Commissioner Gil Ray of Spring Valley, asked that the fence requirement be reduced to four-foot in height.

The Rev. H. C. Bakken said he felt the fence would be a detriment to the neighbors instead of protection from car headlights.

will officially dedicate their new \$140,000 air-conditioned church Sunday, July 7.

The 3:30 p.m. service will be.

Kids May Enter 'Peace' Contest

What does 'peace' mean to a child? As adults we might visualize doves, olive branches, comfort and security . . . but what does a child see?

A children's corner, designed by the Peace Information Center of San Diego, is a feature of the PIC booth at the Del Mar Fair. While parents rest, children are drawing their 'impressions of peace'.

Prizes will be offered for the three best drawings. They will be judged by San Diegans Bob Myers of KOGO, Ken Eisler of the La Jolla Art Center, Thor Svenson of Omniart Magazine and Belle Berenchiano, children's art teacher of the Francis Parker school. The judges have indicated they are looking forward to the contest as a "very interesting experience".

Overall impressions, rather than artistic ability, will determine the decisions of the judges. Any child up to 12 years of age is eligible. Prizes of books and records, contributed by Sign of the Sun Book Shop, will be awarded in three age categories to children up to 7, 7 to 10 and 10 to 12 years old.

FUTURE ADVERTISING CARTOONIST — Dusan Petrovich, newest student to Mount Miguel High School, sketches a still life at his desk in the art room. Dusan, from Yugoslavia, recently came to Spring Valley to continue his education after living in Canada with his father. Photo by Mike Hanes

Yugoslav Student Comes to SV Area

By Donna Shumpert
Miguel Press Bureau

Yugoslavian pupils receive severe physical punishment from parents and teachers if they neglect their school work, according to Dusan Petrovich, Mount Miguel High's newest student.

A budding cartoonist and amateur astronomer, Dusan left Belgrade, "the White City," with his mother and brothers in 1959 to become a resident and citizen of Canada.

In Canada they lived with his father, who, after escaping from Yugoslavia, fled to Canada in 1957. Mr. Petrovich, a motion picture projector operator in Yugoslavia, is a railroad worker in Canada.

Schools Compared

Mr. Ziva Grozdenovich, a cousin with whom Dusan stays, has lived in Spring Valley for many years. Dissatisfied with Canadian schools, Dusan arrived in San Diego last Christmas to live with the cousin. He is amazed at the relationship between teachers and students at the Spring Valley school.

The teacher-student relationship in Yugoslavia can best be described as "grim." Instead of being greeted with a friendly "Hello" and a smile, students in Belgrade must stand at attention as the instructor enters and leaves the classroom.

Furthermore, students recite rather than explore all facets of subjects. No one "questions" the traditional learning situation, he said.

Curriculum

His curriculum in the Communist controlled country included physical education, social studies, world geography, composition, German, French, art, the economy of Yugoslavia, woodshop, science, chemistry and style of writing.

Another surprise for Dusan was our five-day-school-work week. In Yugoslavia he attended school six days a week, and during the one-day weekend, spent many hours on his homework.

However, "I took time out from week-end homework to enjoy movies, picnics, dances, music and TV, which has only been in existence in Yugoslavia for two years. Most teenagers there do this," he remarked.

Food Adjustment

"The hardest thing for me to get accustomed to in America was the food, he continued. "Frozen food was foreign to me when I first arrived, but after a few weeks of TV dinners, frozen vegetables, and frozen meat, my stubborn stomach became conditioned to this kind of treatment."

Freedoms

Other surprises for Dusan were the great religious and personal freedoms of Americans, the high degree of democracy, and the exceptionally high standard of living.

The dark-eyed Yugoslav's future plans include becoming an advertising cartoonist and visiting different countries in the world — including, of course, Yugoslavia.

He and his wife, Paula, a 1961 graduate with honors in teaching from San Diego State, temporarily are living in Ocean-side.

The Albert Bwys moved from Lemon Grove to La Mesa three years ago.

Donovan Raps Governor for A.B. 1364 Stand

"The Governor was ill advised in vetoing my House Entry bill," Assemblyman Richard J. Donovan R-Chula Vista charged angrily, after the Assembly failed to override the Governor's veto in a stormy session.

"Both houses of the Legislature gave this measure a real going over, passed it overwhelmingly, ironed out the amendments in joint conference committee, and unanimously approved the committee's report. Then, without any apparent logic, the Governor scrapped all of our efforts."

Donovan's bill, A. B. 1364, would have amended existing provisions of the State Housing Law that appear to give enforcement officers the authority to enter inhabited dwellings between 8 a.m. and 6 p.m. without the consent of the owners or occupants.

"This is an unconstitutional violation of every man's civil rights," Donovan said.

"The Governor's veto message said the present law adequately safeguards the rights of individuals. He completely disregarded the California Legislature's opinion to the contrary and just as completely disregarded an opinion I obtained from the Attorney General's Office which agreed that the law covering this situation, 'is at best in a state of flux,'" Donovan explained.

"My bill harmed no one, but it would have done a lot of good in clarifying an otherwise hazy situation. It was an effort to reaffirm a civil right granted by our constitution — the right of the people to be secure in their person, houses, papers, and effects, against unreasonable searches and seizures. This right is basic to a free society. To veto such a measure is to reject the most fundamental right of all the civil rights; a subject for which I always thought the Governor had unusual sympathy."

Under its Choice-Not-Chance program, qualified applicants enlisting for three years are afforded the opportunity of making a selection from a list of more than 100 technical schools, 33 vocational training options, and several overseas assignments.

Schooling and vocational choices include electronics, medical, dental, supply, missiles, administration, engineer, equipment maintenance, military police, radio, telephone, Army security, aircraft, chemical, data processing, automotive maintenance, communications, drafting, surveying, food service, combat engineering, and photography.

For more information about the Army's "Choice-Guaranteed" program, interested young men and women are invited to visit the Recruiting Station at 8101 La Mesa blvd. in La Mesa or, call 463-3114 for an interview appointment with an Army career counselor.

The DIMMER VIEW

(Continued)

The law, once the Governor signs the bill, will not be effective until September. That is the only fortunate part of the bill we can see. It gives people here a few weeks of breathing time before the clamp is put on.

League of California Cities strong hand can be seen in this legislation and from the bill will emerge California super-cities, we believe.

Cities want us because we supply added tax base. As a city we would have local use of whatever tax base we wanted with local citizens dictating the rate.

There is but one way to defend against the law, and that is to start incorporation proceedings before the bill becomes effective.

Join the Army and Help

The Salvation Army with its tradition of service to the homeless, the hungry, the sick, and the troubled in San Diego county, is calling on local newspapers to give the Army a helping hand.

Newspapers, they suggest, could help the cause by pointing out that its service to the less fortunate, is based on an old time-tested conviction — that man best serves God by serving his fellow man.

While the Salvation Army continually adapts its programs to fit the changing needs of the community, its most important tool is combating the hopelessness of the aged, the hostility of the neglected youngster, and the agony of the alcoholic is an ancient and eternal one — love and patient understanding.

There is a drive on now to recruit members for the Salvation Army Association. The Association provides the principal support for the Army's welfare activities.

Membership fees range from \$10 to \$100 and these funds are channeled back into soil saving almost from the minute the money is received. Such information as is needed to strengthen your interest can be gotten from the S.A. office at 830 3th ave., S.D.

... More of Those Unkept Promises

The New Frontier should be measured by its campaign promises as well as its performances and even those who discount a reasonable percentage of campaign promises have reason to feel disappointed. Here is another of the several lists we've offered to show the variance between the mouth and the action.

PROMISE — "It is unfortunate that we can secure peace only by preparing for war. I can imagine no more hazardous course than for the U.S. to gamble on its defenses, to take a chance that the Russians and the Chinese Communists will follow in a peaceful role if we disarm here in the United States." John F. Kennedy, Seattle, Wash., Sept. 6, 1960.

PERFORMANCE — The Administration has adopted a policy of "disarmament by stagnation." No new weapons programs have been started by the Kennedy Administration, and many initiated by the Eisenhower Administration have been canceled. Bases have been dismantled around the world, and missiles withdrawn. The Administration by its inaction is disarming us for the future.

PROMISE — In many ways they (the Nation's problems) move beyond the problems which the New Deal and Fair Deal faced in their days. They are new problems that require new solutions." John F. Kennedy, Portland, Ore., Oct. 7, 1960.

PERFORMANCE — The New Frontier has revived all the old leaf raking make-work panaceas that failed to reduce unemployment or jack up the economy in the 1930s. Instead of forward-looking solutions, it has taken such programs as the WPA out of mothballs, trying to dress it up with a new name.

PROMISE — "I hold the view that the tide and history can move with us: that those people who desire to be free outnumber those who are willing to sell their lives to the Communist system, but we have to give them leadership." John F. Kennedy, Fairborn, Ohio, Oct. 17, 1960.

PERFORMANCE — Laos has been "triple-crossed" by a Russian-backed "troika" government, which is turning the country to Communist control. The Cuban rebels were double-crossed by the Administration which promised help but provided only harassment and checks. The people of Berlin were crossed up by the Administration which allowed the Berlin wall to seal them off from their friends and relatives in the same city. The Administration, in short, has provided lethargy instead of leadership.

EXPERIMENT UNDERWAY

A new approach, through television, is being used on the Grossmont College campus to solve the common college registration problem of knowing when programming for a particular full class must be spotted.

Monitors of the current enrollment in classes have been so placed as to enable instant referral to class enrollment as the registration process occurs. This should electronically solve a problem of disbursement of necessary class enrollment data that formerly caused confusion and delay in programming.

The TV equipment, loaned by the San Diego County Schools for this experiment, has been undergoing testing this past week. Registration for summer classes, June 26, 27, 28, will furnish the basis for judging the effectiveness of the new technique. Monitors have been set up in the Office of Dean of Instruction, the Counseling Center, and the Date Processing Center.

Registrars from area colleges have expressed interest in the experiment. The system will be best applicable to use in the new Grossmont College campus in Fletcher Hills, scheduled for completion September, 1964. At that time enrollment is expected to increase 50%, with a corresponding need for use of the best possible mechanical aids to registration.

Simmons' winning time for the 12-lap event was 8:15. The lightweight professional division continues to be a battle between San Diego area riders. Johnny Apple of Imperial Beach is setting the pace with Cecil Hollenbeck second. However, Cal Rayborn was able to gain on the leaders by winning his heat, the trophy dash and

Resident Receives Star After Waiting 45 Years

Edward F. Ferreter, 70, of Spring Valley received the Silver Star at the June 17 meeting of Barracks 240, Veterans of World War I.

Ferreter was cited for an award in 1918 after serving with Company B, 102 Ammunition

After two of his buddies were defending champion Dick Fries, ammunition truck they were driving, Ferreter continued driving across a field under heavy artillery fire from the lines.

"He only weighed 108 pounds when he went into the army," Mrs. Ferreter said. "He was so small they couldn't him him."

The Silver Star was presented to Ferreter by John Briel, commander of Barracks 240, and was pinned on him by his wife, Mamie.

The Ferreters have resided in Spring Valley 18 years and 22 years in California.

He was found ineligible for the Purple Heart, but for bravery "beyond the call of duty," the President authorized a Silver Star, the fourth highest decoration a man can receive from the United States Government.

Committee Recommends To Improve PE Program

The Grossmont District Physical Education Committee recently presented a report on physical education improvement to the Grossmont Union High School Board of Trustees.

Principle recommendations by the committee were:

To improve the physical education program for students in the Cadet Corps and Marching Band.

To develop a physical education specialist at each high school to teach the classes for the physically handicapped students and direct an after-school intramural physical education program, with the understanding that this specialist would not have coaching responsibilities.

To encourage incoming freshmen and new students to bring evidence of a thorough physical examination within six weeks of enrollment.

To make changes designed to meet the standards established by the State Department for physical education.

And to use a 5 cent recreational tax levy to finance improvements in facilities which would be a part of school-centered community recreation programs.

Beginning in September, 1965, the facilities would include swimming pools and more grassed recreational areas.

Recommendations of the Physical Education Committee had been endorsed, in general, by a district-wide citizens' committee composed of Colonel Francis Andrews, Mr. William Beck, Dr. Simon Brumbaugh, Dr. Ed Grubbs, Mr. Sidney Campbell, Mr. Stan Colder, Mr. James W. Clark, Dr. G. DuVigneau, Mr. Fred Guernsey, Mr. Charles Irwin, Dr. Fred Kasch, Dr. Ralph King, Lieutenant Colonel William Rankin, Mr. Virgil Sherrill, Dr. Larry Smith, Dr. Lowell Smith, Mr. Philip Titmas, and Dr. Thomas Webster. Recommendations also were generally endorsed by the administrators.

Board action was to accept the report and proceed on recommendations which do not involve additional costs, and to hear other recommendations at a later date. This would include the proposal for use of the 5 cent recreational tax for the swimming program.

LOCAL BUSINESSMAN RETURNS TO WORK

Art Helphand, operator of the newly opened Grove Mart Discount House will return to active management of the business next week, his family reported.

Helphand collapsed from overwork soon after the place opened. His doctor said there was not heart involvement.

He has been resting for about three weeks.

Sjogren Heads School Board

The Lemon Grove school board, as it usually does each year, cancelled the July 23 meeting and combined the August 12 meeting with the budget hearing set for August 1. Cancelled also was the August 26 meeting.

The next meeting, however, will be the regular meeting on Monday.

The vacation spirit did not prevent the board from selecting officers for the coming 12 months. Robert Sjogren, attorney, was elected president; A. J. Long, vice president and newly elected member Lyle Stumbaugh, a CPA, was made clerk of the board. Byron Netzley, district superintendent, is secretary.

The new board then assigned Sjogren as representative on the County Committee on School District Organization.

Students to Dance At SD County Fair

Students of Kay's Dance Studio, L.G., will perform at the County Fair July 7 at 1:30 p.m. on the community stage.

Approximately 35 children from the Spring Valley-Lemon Grove area will perform with Kay's Dance Studio group.

They will participate in tap, acrobatic, modern jazz and ballet dancing, and singing. Jeanne Veliquette who has held the San Diego baton championship for the last three years, will perform "Hey, Look Me Over," a baton twirling act. Many of the dance students participating in the program have won local and regional awards, and have performed at many public and benefit shows.

Dance studios from all over San Diego County will perform each day of the fair.

Joe Harris, advertising manager of this newspaper, will be master of ceremonies.

HAPPY BIRTHDAY — Pretty Marcia Manu, Miss Lemon Grove 1963-64, chats with Bill Goldy, proprietor of Michael's cafe on Broadway in Lemon Grove. Michael's, under Bill Goldy's proprietorship, is marking its second birthday and a party is scheduled for Wednesday night, July 17. A free buffet, favors and souvenirs are all part of the Happy Birthday program. A dance band will provide music for dancers.

Events Slated in Fibrosis Campaign

An old fashion lemonade and cake sale and bowling and golf tournaments are among several events planned during the Cystic Fibrosis Research Foundation's July fund campaign.

The old fashion lemonade and cake sale is slated July 19 and 20 at Grossmont shopping center.

Scotch Doubles

Approximately 30 prizes will be awarded in the Scotch Doubles tourney July 20 and 21 at Lemon Grove Bowlero. Garden Heights miniature golf course, 8900 Fletcher Parkway, will be the scene July 25 of a miniature golf tournament, according to Frank Alessio, county chairman of the campaign.

Also, a swap meet has been

scheduled for July 14 at the Bostonia Aero drive-in theater.

Bishop Dinner

Special activities during the month include a "Padre Night" at Westgate Park, July 13, and a Joey Bishop dinner, dance and show at Hotel del Coronado, July 20.

Tickets to Padre game and Joey Bishop show can be obtained at Cystic Fibrosis office, 1629 Sixth, or by calling 234-1382. The Bishop show will be limited to 400 couples, ticket chairman Roger Thies said.

Chronic Disease

Cystic Fibrosis, Alessio points out, is one of the most serious and most common chronic diseases with which children are born. Until a few years ago, almost all CF children died in infancy.

Early diagnosis and adequate treatment has made it possible for CF children to survive longer than that but half of them still die before they are five years of age.

Camera Club Meeting Set

Next regular meeting of the La Mesa Camera Club will be July 16 at 7:45 p.m., in Porter Hall, 8472 La Mesa Blvd. The program for the evening will be a color competition.

Members are asked to bring four slides for entry. Mr. Kenneth Rinker, a member of the Southern California Association of Camera Clubs and a well known teacher of photography, will comment on and judge the slides.

All who are interested in photography are invited to attend and members are asked to bring their friends.

NAVY PUBLICATION STARTED BY FOSTER

A new publication, Navy Life, is being readied for press by Rex M. (Frosty) Foster, former manager of the L.G. Chamber of Commerce.

He said the publication will be aimed at Navy chief petty officers around the world.

He claims to have 200 Navy chiefs signed up with an active and retired chiefs potential of 37,000 in the San Diego area alone.

He said the publication would be nonprofit.

The Lemon Grove Chamber of Commerce reported a bank balance of \$13.33 and a deficit of \$346.76 at the monthly meeting Tuesday.

Several projects are under way by which the deficit is to be overcome, Sam Pernicano, Chamber president said.
